

The advantages of ECO-AD pumps:

- easy installation
- screwed chambers for safe operation
- rugged, cast feed mounting holes keep your pump from vibrating
- available as cover-mounted, pail-mounted or wall-mounted units
- immersible in most situations
- easy to adapt
- a large scale of material options for fluid versatility with extended pump life
- air powered convenience for use in a variety of installations with no electrical hazard
- performs on-demand in remote locations
- extremely portable for multi-location use
- pumps move a wide variety of coatings, solvents, viscosity sealants, adhesives, inks, acids and more
- easy to maintain
- seal-less, leakproof design prevents fluid waste and mess
- even in wet air, the stainless steel diaphragm rod air motor is designed for long life and corrosion resistance
- easy to operate
- pumps reduce or eliminate manual filling and transport
- reduces the risk of hazardous spills and employee exposure
- multiple dispense points throughout your plant can easily be served.
- can run dry without pump damage
- no air lubrication necessary.

ECO-AD

EA50 Non-Metalic

EA50 Plastic Pumps

Maximum fluid working pressure	120 psi (8.4 bar, 0.84 MPa)
Maximum free flow delivery*	150 gpm (567 lpm)
Maximum pump speed	145 cpm
Displacement per cycle**	1.03 gallon (3.90 liter)
Maximum suction lift	18 ft (5.48 m) wet or dry
Maximum size pumpable solids	0.25 in (6.3 mm)
Air inlet size	1/2 npt(f)
Fluid inlet & outlet size****	2 in (51 mm) ANSI-flange
Weight	49 lb (22 kg)

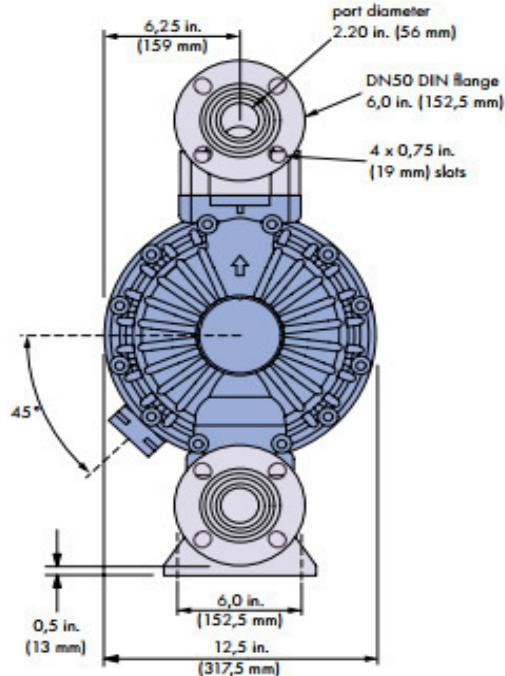

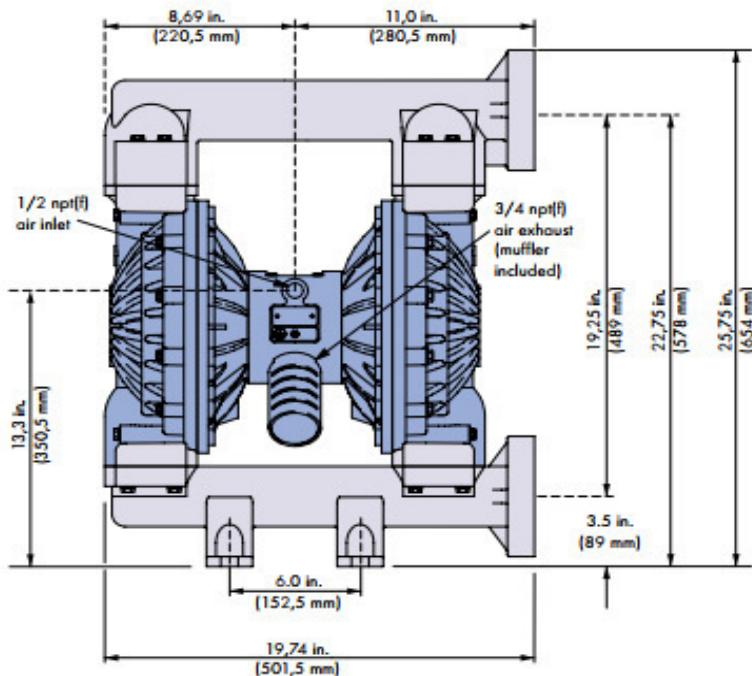

Polypropylene

120 psi (8.4 bar, 0.84 MPa)
150 gpm (567 lpm)
