

BWI

Light horizontal multi-stage centrifugal stainless steel pump

Application Limits

- Thin, clean, non-combustible, and non-explosive liquid containing no solid particle or fiber
- Applicable to deliver tap water, alkaline mineral water, softened water or mildly-corrosive medium
- The use of a large-power motor must be considered when the density or viscosity of the medium delivered is higher than that of water.
- Medium temperature: 0°C ~68°C for normal temperature type; 0°C ~120°C for hot water type
- Ambient temperature: -15°C ~+40°C ; maximum operating pressure: 1.0MPa
